# Geervan K

Aspiring Software Developer | Al & ML Enthusiast | Flutter & Web Development

#### **SUMMARY**

Motivated computer science student Contributed code to open-source projects and excelled in tech competitions hosted by IEEE and ACM. Seeks opportunities to apply technical knowledge in collaborative, growth-driven environments.

### **EXPERIENCE**

<b>Technical Team Member,</b> <i>CampusAdda</i> Still in the beginning stages of learning flutter development	02/2025 – Present Jaipur, India
<ul> <li>Web Dev Team, Google Developer Groups - Manipal University Jaipur</li> <li>Tech club in Manipal University Jaipur</li> <li>Applied HTML,CSS,JS with a little intro to ReactJS</li> </ul>	12/2024 – Present Jaipur, India

Applied HTML,CSS,JS with a little intro to ReactJS			
mputer Science and Engineering,		01/2024 - 01/2028	
		01/2022 - 01/2024	
		01/2011 - 01/2022	
• C/C++	<ul> <li>Javascript</li> </ul>		
• CSS	• Dart		
	mputer Science and Engineering,  • C/C++	mputer Science and Engineering,  • C/C++  • Javascript	

OpenCV

### **PROJECTS**

Flutter

Class Item Reminder App[Not a Regular Alarm], https://github.com/Geervan/class\_reminder ☑ An App I made to make remind me to take all of my things from class, because I kept forgetting them • Tech Used: Flutter and subsequent Libraries

ReactJS

**GDG Event Page (Part of the website),** https://gdg-eventpage.vercel.app/ ☑

• Tech: HTML,CSS,Javascript, ReactJS

Invisible Cloak, https://github.com/Geervan/invisible-cloak ☑

Made a fun project which using CV and essentially overrides blue color in the current frame, giving it a invisible/seethrough effect

• Tech Used: Python, OpenCV

## SL-Security [1st place in Scam-a-thon shared collaboration],

https://geervan.github.io/SL-security\_non\_sarcarstic/ 🖸

- Contributed to the design and development of a simulated phishing website frontend for an awarenessbased competition. Focused
- on creating an authentic and persuasive UI/UX experience.

## **Cosmos Classroom,** https://void-nine-kohl.vercel.app □

- Purely Vibe Coded for a vibe coding hackathon, its a 3d space featuring, My College's 3D elements like building trying to create a learning environment
- Tech Used: HTML TailWindCSS Javascript Three.js

## **SpaceBasic Automation** 🗷

• Made an Automation/Bot which automates the process of calling the housekeeping for my hostel room, more over it also automates accessing my Attendance from my Student Management System

### **KEY ACHIEVEMENTS**

#### **Code Contributor**

- Completed a 2-month code contribution at GirlScript
- Summer of Code.

# **Event Leadership**

- Led organizing committee for MUJ Oneiros attended by
- 500+ guests.

## **Tech Competitions**

- Participated in 3 tech competitions earning 2 certifications
- from IEEE and MUJ ACM.
